CAREER OBJECTIVE

Seeking an opportunity to work in an environment which would provide me a platform to gain experience in solving industrial problems by designing algorithms and developing codes.

INTERSHIPS

BNY Mellon Technology, Pune (Jan'17 – April'17):

- **Health Care Management System:** This application was designed for an end user and admin, in which an end user can calculate its BMI, Diabetic risk, calories required per day, etc. whereas an admin can look into the details of each end user. This project included linking of Java MVC with Maven Project to create the RESTful API.

Software Engineer Intern – TiVo Corporation, Bangalore (July'16 – Jan'17):

- **REVISTA:** For one of the customers named REVISTA, we prepared the intermediate files used for knowledge graph merge. This project involved extracting various key information like title, season, crew, etc. from huge chunk of xml files.
- **WIKITYPE:** Under this project, we extracted efficient information from wikipages through all the possible sources to provide TYPE and SUBTYPE to each WIKIPAGE and achieved 80% accuracy under this task.

TRAINING

- **Integrated Project - Meetup Event (Jan'16 – Jun'16):**
Created a cloud Based API server in Python to provide a platform to organise a Meetup event requested by a registered user on the application portal, whereas the event data is shown in UI using flask framework.
- **CISCO academy (Jan'16 – Jul'16):** Completed Cisco certified network course offered by CISCO academy in 2016 and scored above 90%.
- **Created a Restaurant Website (Jul'14-Dec'14):** This website was created in HTML using CSS, JavaScript and Bootstrap features in an extensive manner using frames, tables, Internal, external linking.
- **Training on Search Engine Optimization in IOHC(Jun'14-July'14):** Under this training, learnt about fundamental ranking techniques, audience perspective, statistics analysis and refined keyword usage in order to bring ranking of website on the top of a relevant search. Thus, in the process I created a website to have hands over the concepts.
- **Underwent training of Core Java at Spic, Chandigarh:**
Created a Game known as TIC-TAC-TOE.
